RISK ASSESSMENT AND INTERNAL CONTROLS

The Board also reviews the Group's ability to continue as a going concern on a regular basis.

The effectiveness of the internal controls is overseen by the Board and is operationally monitored by management on various organisational levels. The Group's financial control function is responsible for periodically testing the controls and overseeing the commitments entered into in connection with the operations of the Group. The Board considers the internal controls and procedures in place to be appropriate for the size, complexity and risk profile of the Group.

The Group does not have a separate internal audit function to evaluate and test the operating procedures and processes relating to internal controls, but has engaged an independent firm to assist with this evaluation and testing and to determine vulnerabilities within the Group. The planning and reporting of the internal audit function is monitored by the Audit Committee and the Board of Directors and is regularly discussed with the Group's external auditors.
