QUARTERLY REPORT 30 SEPTEMBER 2005

SYLVANIA RESOURCES LIMITED (ASX:SLV.AX)

HIGHLIGHTS

- **CTRP production continues to improve**
 - **Cash margin for quarter US\$700 per PGM ounce**
 - **Cash on hand at end of quarter A\$10 million (GBP4.23 million)**
-

SOUTH AFRICAN OPERATIONS

Chromite Tailings Retreatment Project (“CTRP”) (formerly “RK1”)

During the Quarter the CTRP produced 1363 ounces of PGM’s at a margin of approximately US\$700 per PGM ounce, clearly demonstrating the robust economics of the project during the ramp up period.

The technology has now been proven, and with some final technical enhancements to the plant, the directors are confident that the CTRP will deliver increasing ounces whilst maintaining current profit margins.

Sylvania Resources Limited (“Sylvania”) owns a 25% interest in a Consortium led by Aquarius Platinum Limited. During the quarter, the consortium changed its name from the RK1 project to the “Chrome Tailings Retreatment Project” (“CTRP”). The Consortium treats chromite tailings through a purpose built plant adjacent to Aquarius Platinum Limiteds’ Kroondal Mine, in order to extract platinum group metals (platinum, palladium, rhodium and gold).

The plant was commissioned during December 2004, and first production commenced on 13 January 2005. The first concentrate from the plant was shipped on 21 January 2005.

Please refer to the Sylvania Resources Limited website at www.sylvaniamresources.com for photographs providing regular updates on the progress of the construction.

Everest North Project

During the quarter Sylvania developed a drilling programme for the Everest North project, which will commence during November 2005.

QUARTERLY REPORT 30 SEPTEMBER 2005

The Everest North project, over which Sylvania has control, lies on the Farm Vygenkoek in the eastern Bushveld of South Africa, and is prospective for Platinum Group Metals (“PGMs”). Previous work has outlined an Inferred resource of 4.2 million tonnes grading 5.87 g/t (Platinum, Palladium, Rhodium and Gold), for an Inferred resource of 796,000 ounces of PGM’s. Sylvania will further test the ground to assess the viability of delivering dense medium separation sinks to Aquarius at their Everest South Mine, which is currently under construction.

Sylvania has initially paid to Aquarius R2 million, and is now acting as a contractor to Aquarius. Sylvania is, at its cost, prospecting the Everest North Project area. Upon proof of the project viability, Sylvania will assist Aquarius to obtain a mining right which will subsequently be transferred to Sylvania. Sylvania will pay a further R6 million to Aquarius upon grant of the mining right to Sylvania.

Aquarius and Sylvania shall, for a period of three months from the date of the grant of a mining right to Sylvania, negotiate on an exclusive basis, to conclude a written agreement to regulate the terms upon which Sylvania shall supply to Aquarius all PGM bearing ore produced from the property, or in circumstances where Sylvania has constructed a concentrator plant to process PGM bearing ore from the property to produce PGM concentrate, any such PGM concentrate.

A desktop feasibility study has shown that this is a robust project, and drilling will commence shortly.

AUSTRALIAN OPERATIONS

Previous exploration by Sylvania within Australia has been focused on the Archean Sylvania Inlier, situated in Western Australia. Within this area the Company still retains mineral exploration projects known as Copper Knob and Jimblebar. The projects lie east and south of Newman and are located within the Peak Hill Mineral Field. Exploration on these tenements has targeted gold, copper-zinc, nickel and platinum group element mineralization.

Sylvania has previously entered into an Option Agreement with Warwick John Flint (“Flint”) over all of the Australian tenements of Sylvania at Jimblebar and Copper Knob. Under the terms of the Option Agreement Flint has the right to exercise the Option at any time up until 16 August 2005, to acquire Sylvania’s interests in its Australian tenements for the consideration of A\$55,000, and the issuance to Sylvania of fully paid ordinary shares in a listed entity to the value of A\$200,000. Flint has the obligation to maintain the tenements in good standing during the life of

QUARTERLY REPORT 30 SEPTEMBER 2005

the Option Agreement. Flint has the right to extend the Option Agreement for a further 12 month period, until 16 August 2006 through the payment of A\$10,000 and the share consideration increasing to A\$300,000.

Sylvania entering into this Option Agreement was consistent with the Board's stated intention of focusing its attention on the activities of the RK1 Consortium, and other opportunities in Southern Africa.

1. JIMBLEBAR COPPER/GOLD (45 kms east south east of Newman; Sylvania 80% P52/869 & MLA52/739, Sylvania 100% others)

The Jimblebar tenements lie immediately south east of the currently operating Jimblebar iron ore mine. Sylvania's interests now relate to two prospecting licences, with one of the latter associated with a mining lease application, covering an area of approximately 200 hectares.

The main area of interest for copper in the Jimblebar tenements is a prospective sequence of metamorphosed felsic and intermediate volcanics containing magnetite outcrops as well as several occurrences of outcropping secondary copper mineralization.

No field work was undertaken by the Company during the quarter.

2. COPPER KNOB (42 kms east south east of Newman; Sylvania 100%)

The Mining Lease 52/211 at Copper Knob, covers a very large body of disseminated low grade sulphide copper mineralization with some gold values that has been drilled by previous explorers. This mineralization lies within a sequence of felsic and intermediate volcanic rocks that extend for over 9 kilometres forming the Jimblebar copper area. The Copper Knob mining lease has untested potential for an oxide copper resource and for discrete massive copper bearing sulphide bodies.

No field work was undertaken by the Company during the quarter.

QUARTERLY REPORT 30 SEPTEMBER 2005

The technical exploration and mining information contained in this report was compiled by Mr Ed Nealon, a Dwyka Diamonds Ltd director. Mr Nealon provides consulting services via his company Athlone International Pty Ltd. Mr Nealon is a member of the Australasian Institute of Mining and Metallurgy and is considered to be a Competent Person in his respective area of expertise pursuant to the Australasian Code for Reporting of Mineral Resources and Ore Reserves. Mr Nealon consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

Payments to directors of the entity and associates of the directors
Payments to related entities of the entity and associates of the related entities

		Current quarter \$A'000
1.23	Aggregate amount of payments to the parties included in item 1.2	100
1.24	Aggregate amount of loans to the parties included in item 1.10	-

1.25 Explanation necessary for an understanding of the transactions

-

Non-cash financing and investing activities

2.1 Details of financing and investing transactions which have had a material effect on consolidated assets and liabilities but did not involve cash flows

--

2.2 Details of outlays made by other entities to establish or increase their share in projects in which the reporting entity has an interest

-

+ See chapter 19 for defined terms.

Financing facilities available

Add notes as necessary for an understanding of the position.

	Amount available \$A'000	Amount used \$A'000
3.1 Loan facilities	-	-
3.2 Credit standby arrangements	-	-

Estimated cash outflows for next quarter

	\$A'000
4.1 Exploration and evaluation	100
4.2 Development	50
Total	150

Reconciliation of cash

Reconciliation of cash at the end of the quarter (as shown in the consolidated statement of cash flows) to the related items in the accounts is as follows.	Current quarter \$A'000	Previous quarter \$A'000
5.1 Cash on hand and at bank	2,087	9,678
5.2 Deposits at call	7,946	455
5.3 Bank overdraft		
5.4 Other (provide details)		
Total: cash at end of quarter (item 1.22)	10,033	10,133

Changes in interests in mining tenements

Tenement reference	Nature of interest (note (2))	Interest at beginning of quarter	Interest at end of quarter
6.1	Interests in mining tenements relinquished, reduced or lapsed		
6.2	Interests in mining tenements acquired or increased		

+ See chapter 19 for defined terms.

Appendix 5B
Mining exploration entity quarterly report

Issued and quoted securities at end of current quarter

Description includes rate of interest and any redemption or conversion rights together with prices and dates.

	Total number	Number quoted	Issue price per security (see note 3)	Amount paid up per security (see note 3)
7.1 Preference +securities <i>(description)</i>	-	-		
7.2 Changes during quarter (a) Increases through issues (b) Decreases through returns of capital, buy-backs, redemptions				
7.3 +Ordinary securities	91,679,273	91,679,273	N/A	N/A
7.4 Changes during quarter (a) Increases through issues (b) Decreases through returns of capital, buy-backs				
7.5 +Convertible debt securities <i>(description)</i>	-	-		
7.6 Changes during quarter (a) Increases through issues (b) Decreases through securities matured, converted				
7.7 Options <i>(description and conversion factor)</i>	-	-	<i>Exercise price</i>	<i>Expiry date</i>
7.8 Issued during quarter				
7.9 Exercised during quarter				
7.10 Expired during quarter				
7.11 Debentures <i>(totals only)</i>	-	-		
7.12 Unsecured notes <i>(totals only)</i>	-	-		

+ See chapter 19 for defined terms.

Notes

-
- 1 This quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
 - 2 The "Nature of interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
 - 3 **Issued and quoted securities** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
 - 4 The definitions in, and provisions of, *AASB 1022: Accounting for Extractive Industries* and *AASB 1026: Statement of Cash Flows* apply to this report.
 - 5 **Accounting Standards** ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
